Product Description

Adelaide Bank's SmartSuite Commercial Principal & Interest Loan (Fixed Rate) is a term loan (up to a maximum term of generally 25 years) which is used to finance or refinance the acquisition, renovation and/or improvement of a residential or commercial investment property. A fixed interest rate also applies to the loan for set period (up to 5 years generally). At the end of that fixed period, the retail client can set a new period (however, if this is not done the loan will automatically convert to a variable interest rate). Retail clients have limited ability to make additional repayments without incurring early repayment costs. Retail clients can also access other features. Regular principal and interest repayments are required over the term of the loan.
